EDITOR'S TABLE.

The south camps are overrun with German wool buyers, who are purchasing at from \$90 to \$105. Common criolla wool, with a few fleeces of mestizon, has been sold in the Magdalena at \$85 per arroba! Carts are inconveniently scarce, and the farmers have to send into town to engage them, for outside the trojeiros are all engaged for the next three months. The camps are in splendid condition, and farmers are mowing down the grass in the open camp and making hay of it. All the Mercachifles have become millionaires on the profits they made this year in sheepskins: they are now a wealthy body of men, selling off their carts, horses and traps, and buying land and sheep. They say that their business is now becoming dangerous, owing to the number of vagrant gauchoes prowling about.

Col. Conesa has caused quite a stir up in San Nicholas; but his report to Government is humiliating. He states that out of 800 National Guards, he cannot get fifty men to serve, and the men the moment they are served with a citation skeddaddle; he can find no National Guards save the town people: the state of the army in San Nicholas is very demoralized.

Flores, we hear, is about to establish his government in Maldonado or Colonia, as he finds it necessary that the foreign nations should acknowledge him as a belligerent power. The Brazilians, on the other hand, are in a fix: they want to do something, but Mr. Lettsom has them in a corner. We hear, however, that the Brazilian admiral is going to declare the Uruguay, River Plate, and, for ought we know, the whole South Atlantic in a state of blockade, then put a chain across the mouth of the Plate, and search all the vessels coming or going. Strange to say, the people in Buenos Ayres seem to relish the business!

The Provincial Government has paid to the municipality of Chilveoy one hundred thousand dollars currency for the purpose of finishing the new public school-house in that town.

The town of Ranchos is about to be set in order, the streets properly laid out, the houses numbered, and the taxes increased. The Government, we understand, is about to send down a civil engineer to remodel the place.

Lobos is going ahead in a legal point of view: the people out there want an escribano, and Gov. Saavedra says, let them have one; we should rather they applied to his Excellency for seed potatoes.

The Italian consul notifies his countrymen, that if they join Flores they will be liable to a very severe punishment: the galleys for life for officers, and one year for privates. This circular notice has taken all the Italians by surprise, and caused no small alarm amongst the frequenters of the Boca.

The Brazilian commander-in-chief, General Menna Barreto, we hear, is the officer named to invade the Banda Oriental. His force consists of eleven regiments of infantry and five of cavalry: in all ten thousand men; besides this, he has a regiment of artillery and about twelve light field pieces.

The all-absorbing topic through town is the foreign races, which, weather permitting, will come off on Tuesday next. Tickets are on sale at Messrs. Mackern's English Bookstore, which is nearly as well-known now as the "Standard" office.

Two of the escaped prisoners have been caught—José Merlin and Remigio Gattierrez. The police are very busy looking for the rest of the *flores* birds.

The prevalence of the hooping-cough

in town is an alarming fact, and we regret to say that it is extending through the country towns. Can none of our doctors cure this horrible pest, or must we "throw physic to the dogs."

A small boat arrived yesterday from the Island of Martin Garcia, with a few dry hides and empty barrels. Everything is very quiet there. It is believed that President Mitre will shortly visit the place for the purpose of inspecting the fortifications. The offer to feed the men for \$44 mpc per day has caused a rather animated dispute as to the future rations. Some of the soldiers think the Commissary is going to feed the men on jerked beef.

The 'Nacional' states that Flores's secretary, Bustamante, leaves to-day for the rebel head-quarters. Buen viaje!

The Pavon arrived yesterday, but brought no news from San Juan, although we heard it said that the Government had received private despatches, which we strongly doubt. The gold fever however is setting in in Cordova; every one is talking of the diggings. We wait advices per next mail, and if the gold is really as abundant as they say, we will at once despatch our special reporter, and open a branch "Standard" office in the very heart of the mines.

The Opera Company we hear is at last about to leave—everything is packed up, but where Mollo and Briol are going to we have not heard. We suppose, however, we may join with our colleague and say *farewell*.

Mr. Lanuz arrived yesterday from Paraguary. We salute this talented Portefino, and welcome him back.

The war steamer Bombay which is at present in Montevideo with Admiral Elliot's pennant flying, is one of the largest British men-of-war that ever entered that port: she carries 81 guns, is 2,782 tons burthen, and has nearly 1,500 men on board.

The Spanish frigates which are at present in Montevideo will leave that port for Peru about the 30th inst.

The Oriental Government has declared the steamer Gualeguay a pirate: she is liable to be seized at any port; things are getting awfully hot.

The Indians, we regret to say, are committing frightful depredations in the Rio Cuarto. It is high time that the Government should station a respectable force in that locality: all the estancieros out there are in the greatest alarm.

There has been great rivalry going on amongst the army clothiers as to who should get the contract for the *kepis*. The native ones, which were got up in imitation of the French, were very cheap, but deemed worthless. The real French material *kepi* has been selected, although it costs a little more: Mr. Capdevila has got the contract.

Mr. Minelli's letters continue: they betray sentiments and principles, which we are happy to say have hitherto been unknown in this country. We thank the Minister for having removed so decided an enemy to foreigners from the post to which he was most injudiciously elevated. The case of Merlan, who was plunged into prison by Mr. Justice Minelli simply because he laughed at his authority as a surrogate, is a painful proof of the despotism of these country judges. Our colleague, the 'Pueblo,' will not add much to his reputation by publishing the verbose effusions of this humiliated substitute for a country justice.

GODEY'S LADY'S BOOK.

This welcome and amusing periodical was given around yesterday. The frontispiece "The Savoyard" is a very pretty steel engraving. The chart of sea-side fashions is appropriate for our season also, and the stories, designs, patterns, &c., are very interesting for lady readers. There is a sentimental wood-cut of two lovers, entitled "the same old story" and a song (with music) by W. W. Carpenter "Heart of Mine" (translated from the German). The cheapness of this work, which comprises 90 pages per month for \$80 mpc per annum, has rendered it very popular, and Mr. Brill informs us his list has increased wonderfully.

Mr. Brill is also agent for Harper's Illustrated Weekly, and Magazine, which are second only to the Illustrated London News.

GREAT NEWS FROM PARAGUAY.

OPENING of the ELECTRIC TELEGRAPH OFFICE.

The Igurey arrived yesterday with a supplement of the 'Semanario' to the 18th inst. The telegraph wires were laid down to Villeta and opened to service on Sunday 16th inst. The first despatches sent were the following:—
To H. E. D. Francisco S. Lopez, President of Paraguay.

Telegraphic Station, Villeta,
—Sunday, 16 Oct. 1864, 7.15 a.m.

With great joy and profound respect I send your Excellency the first despatch of the telegraph-wires in Paraguay, with my sincere congratulations for the happy anniversary of the second Presidency.

May God preserve you many years.

HANS FISCHER.

Received,
R. T. TRUENFELD.
Government House, Asuncion,
Oct. 16th, 1864.

His Excellency President Lopez has received with great satisfaction the first telegram, dated at 7.15 this morning from Villeta, commemorating the Presidential anniversary, on occasion of inaugurating the telegraph-wires in the Republic.

His Excellency desires me to congratulate and thank Mr. Hans Fischer, as also the Director Mr. Truenfeld and staff of the telegraph Co. for the happy issue of their labors.

FRANCISCO SANCHEZ.

Manifestos bearing over 100,000 signatures have been sent in from the various parts of the country, approving of the attitude of the Government in respect to Brazil. This is not surprising inasmuch as there is a strong feeling against the Brazilians, and as all Paraguayans know how to read and write the papers are flooded with signatures.

A war with Brazil is now certain, and the Paraguayan army being the best equipped and disciplined in South America, we may expect very formidable operations.

A new chapel is in course of construction at Asuncion. A fire broke out at the pyrotechnic establishment, near the Hospital. Sor Siciliani is performing at the theatre. There was a great bull-fight on the 16th. The wife of Colonel Wisner died on the 11th.

Imports for September \$81,104.
Exports \$204,563. Duties \$32,106.

NEWS FROM THE PROVINCES.

ROSARIO.

ANOTHER ATTACK BY INDIANS.

The Pavon brings Tuesday's papers. In the statutes of the Central Argentine railway we perceive that each shareholder has a vote for each share up to 10, one extra for each succeeding five up to 100, and one extra for each ten up to 200. A letter from Santa Fé represents the provincial treasury in a flourishing state: the taxes have not been increased, and yet there is a surplus of \$15,000 silver. The Federal Court is working very badly.

Last week we mentioned the robbery of a troop of carts by Indians at Paso Algarroba (Cordoba), but none of the native papers copied it. We now read that another troop from San Luis was attacked on the 14th by 25 Indians at Las Desabridas (Cordoba) and robbed of goods to the value of \$1000 silver. The last troop from Cordoba, with 600 hides, was 20 days on the road (10 miles per day).

A letter from Mendoza, 8th inst., contradicts the evil rumors of the state of affairs there, and praises Governor Gonzalez as a first-rate man. It does not, however, explain the murders on the San Carlos road.

The Cordoba railway works are going ahead, the fourth mile of rails being finished last Saturday. The engineers fixed, on Thursday, the pass of the river Carcarañá in the place designed by Allan Campbell, and on Monday (24th) they continued marking out the line from Tortugas. The barque Onward arrived at Rosario on the 18th with 450 tons of railway iron and several others are daily expected.

The municipality are occupied with the repairs of the calle Aduana which leads to the beach. The club-factions seem to have subsided.

The 'Rosario' has nothing of interest, being full of Club Pueblo documents, and an article beginning "Governor Oroño is a scoundrel."

We are glad to hear that Mr. Perkins is about to bring out immediately his paper "El Cosmopolita," the type for which was daily expected from Buenos Ayres.

PARANA—GOOD NEWS FOR COTTON.

We have the "Litoral" and "Paraná" to the 22nd inst. Public attention is divided between the Sisters of Charity and Cetton, both good auguries for the district. The former have opened their schools for boarders and externs, and will impart an excellent female education, besides the Spanish, French and Italian languages.

A foreigner has recently arrived for purpose of taking a large piece of land and laying it under cotton. Some samples sent to Manchester, of this year's cotton, have been declared superior to the best New Orleans, but the Association reproves the party who forwarded them, charging him with an unworthy trick in sending samples of Sea Island, which cannot have been grown in South America. Nevertheless, the "Paraná" insists that they are genuine.

Dr. Velazco and others are getting up a Society of Beneficence, for which purpose a meeting of the citizens is to be held next Sunday at the club house. A petition is sent to the National Government for the establishment of a Model Industrial School at Parana. There is still talk of a railway to Nogoyá which it is calculated will cost only half the rate of the Eastern Argentine. The Paraná papers have copied a blunder from their Buenos Ayrean colleagues, making the Eastern Argentine estimate only £3,300 instead of £13,300 per mile.

The "Litoral" proposes to construct a tramway from the town of Parana to the beach; estimated cost £8,000. Sor. Parera's cotton has turned out well, and he intends to plant largely this season. Dr. Carriego condemns the generosity of Urquiza in allowing a pension of \$5,000 to the ex-tyrant Rosas, who is said to be very poor at Southampton.

NEW LAND-LAW IN ENTRE RIOS.

The following bill is now before the Provincial Chamber of Entre Rios:

1st. Persons in possession of pasture lands over forty years are hereby recognised proprietors of three-fourths of said lands.

2nd. Those holding same over thirty years shall be entitled to two-thirds, those over twenty years to one-half, and those over five years to one-third.

3rd. The Executive shall transfer titles at once in all the above cases, on legitimate proof being adduced of possession.

4th. All lands not so alienated by Government shall be declared public property, and the temporary squatters ejected.

5th. All sales or gifts of public land before the Constitution of 1852 are hereby declared null and void, unless where the purchaser consummated the transaction by entering into possession.

6th. Such persons as may have bought public lands and paid a deposit without getting possession shall be refunded all payments with the customary interest.

7th. A moderate compensation will be given to such squatters as may be ejected, when possessing over one hundred horned cattle or two hundred sheep.

The property-tax for the ensuing year is placed at 4 per mil on farming stock and lands, and 6 per mil on house property.

SAN NICOLAS.

The "Eco del Norte" of Saturday gives an account of the amicable arrangement between the rival Clubs, through Colonel Conesa's mediation. The Club Pueblo sent as special commissioner D. Pablo Zarateconlegui to express their loyalty to Governor Saavedra, and the whole difficulty is now at an end, the citizens agreeing unanimously to vote for the following municipal list: Sandalio Boerr, Norberto Ruiz, Francisco Robles and Angel Miglioni; substitutes Juan B. Martinez and Nemecio Rodriguez.

NEWS FROM RIO GRANDE.

We have received direct the news-papers from that province. Letters from Bage to the "Comercio de Pelotas," give the following:—
"By a person arrived from the neighboring State, (Oriental Republic), we

are informed that Fidelis has ordered a Captain Taborda and five others to be shot. The reason for which, according to the correspondent of Bage, is, the outlaw Fidelis had the prisoners shot for Captain Taborda having been taken previously by him, and pardoned on condition that he did not serve as long as the belligerents made war against each other in that State. If the statement in said Brazilian paper be true, the outlaw Fidelis has stained himself with another crime. Supposing that Taborda had broken his word, the other six had no fault. Such proceedings disgust us. In the same paper referred to it is stated that, in Montevideo three Brazilians, naval officers, who went on shore to walk about, have been taken prisoners. Who knows, exclaims the editor, the fortune that awaits those braves in the midst of those blood-thirsty Neroes?

The artillery that was stationed at San Gabriel was in movement for Pirahy. The 4th battalion that was at Bage would soon march to the same point, and the 5th battalion between the 10th and 12th of October. The Lieutenant Colonel Guedes has been made prisoner by General Canavarro for having counter-marched from Ibiuhy against the orders of his superior officer. The 3d of the Line will not put itself in movement, as the Presidency is waiting orders from the Corte to that effect. [Reforma.]

NEW BARBARITIES IN DOLORES.

In Monday's French paper we read a letter from Dolores, dated 19th inst., to the effect that some members of the Municipality, encouraged by the impunity of the late tragedy, have given full rein to the most riotous proceedings:—

"On last Sunday night, Messrs. Pita and Guilbeant, members of the Municipality, accompanied by several other persons, entered the 'fonda' of a Frenchman, named Francois Rochat. After drinking pretty freely of beer, they commenced smashing the tumblers and bottles with the butt-ends of their loaded whips. They also broke all the vessels on the counter. One of the people of the house complained of this proceeding, when a fellow in company of the Municipal members unsheathed his knife, and putting it to the complainant's breast threatened to do for him.

"Another of the rioters then leaped on the billiard-table and commenced to dance on it, stopping the game and the players present. Hereupon the owner of the house begged the gentlemen to conclude their orgies instantly, but the billiard-dancer replied, that if any one had the insolence to check him he would smash everything in the place, and if further vexed would set fire to the house.

"After an interval the riot abated, and the billiard-dancer, getting down off the table, came over kindly to M. Rochat, and taking his arm affectionately led him into the yard. Rochat had no evil suspicions of the fellow; and it being very dark, the latter struck him a violent blow with his fist in the head, at the same time endeavoring to draw his knife. Luckily a person just then rushed out and rescued the inn-keeper.

"At five o'clock in the morning, after a series of exploits, the Municipals and their friends left the house.

"M. Rochat has laid the case before the Justice of Peace, D. Mariano Ramirez, but as the authorities are the same who figured in the excesses of August 16th, there is no hope of remedy, and the town continues in alarm. Suspicious characters are seen prowling about the houses at night, and there is no security for life or property.

DARING BURGLARY.

On Tuesday morning, about 4 o'clock, the jewellery store of Monsieur Grouteau, situated near the corner of Calles Florida and Rivadavia, and distant only a hundred and fifty yards from the head police-office, was broken open by some burglars in the most daring manner. They effected their entrance by means of a key exactly similar to M. Grouteau's. The proprietor was sleeping in a room off the shop, and hearing some noise, he got up and opened the door, whereupon the robbers fled, but not without carrying off a quantity of jewellery hanging up in the show-windows. They left behind them a hat, and

iron pincers, and the key with which they got in. The key bears the marks of having been much used, as if they had previously been practising with it before the night in question.

It appears that, for some time back, M. Grouteau has been in the habit of leaving the bolts unshot, to permit his nephew to come in, in the morning, without the necessity of getting up himself; and it is likely the burglars had become aware of this fact.

It is a subject of alarm and surprise that a shop in the most central part of the city should be broken into, at the hour of dawn, while the "serenos" are yet on their beat, as they do not retire till an hour later. Either the sereno must have gone home much before his time, or lent an improper and ill-timed kindness to the malefactors.

Be this as it may, until the Chief of Police can make known what measures he has taken to trace or detect the robbers and punish the sereno, people will make all sorts of reflections. Meantime the Government ought to open its eyes to the shameful police administration of the city, and put it on a proper and respectable footing.

M. Grouteau's loss is estimated at 50,000\$ mpc.—[Progrés.]

PROVINCIAL LEGISLATURE.

THE PAPER MONEY PROJECTS.

The Senate, in its session of yesterday, passed the bill for selling the railway, and made some amendments in that of the re-modelling of the Bank, abolishing the manager proposed by the Deputies, and forming an annual board of a chairman and 10 Directors.

The loan being rejected, this is little better than a bagatelle, as the evil of paper money is as far as ever from remedy.

BACHELOR OF ARTS.

October 20th, 1864.

To the Editors of the Standard.

Gentlemen:—

You might remind your readers in editor's table to-morrow, that the play "On Demande au Gouverneur", announced by the Bouffes, is the original of the "Bachelor of Arts," so recently given on the same boards in English.

Yours,

Very truly,

B. A.

THE SUNKEN COAL HULK.

Parana, Oct. 24, 1864.

To the Editors of the "Standard."

Regarding the information which you publish in the "Standard" of the 19th of October, in reference to the pontoon sunk in the port of Parana, belonging to a Paraguayan: your informant is very much mistaken about four hundred ounces being paid for raising the pontoon and recovering the coals. I have taken the contract of raising the hulk, and will send you down a copy of it. The river is very high, which has put a stop to the work for the present.

I remain, etc.,

DANIEL MCINNIS.

SOUTH AMERICAN LOCAL INVESTMENTS.

The Central Argentine Railway which has lately been incorporated as an English enterprise, has afforded an opportunity for bringing prominently before the capitalists of that Republic a means by which they can at the same time benefit their country and add to their individual resources. Hitherto almost the only employment for surplus capital (of which there is a much greater accumulation in the Argentine provinces than is generally supposed) has been loaning out money at usurious interest, or gambling in a depreciated currency, by which means many have grown rich without benefiting the country in any shape or form. The habit has become so inveterate that patriotism or philanthropy have been a dead letter, and, as the Buenos Ayres 'Standard' very properly says, "to build fine houses, and wallow in the mud approaches to them, has constituted the pride of the rich Portenos." We trust a better era is store for them, and that the example lately set them by Englishmen, who have embarked their capital to make railways, and assist other industrial enterprises, will soon be followed at Buenos Ayres: for it must be evident to the most sordid mind that is assisting to open the country by such means

and to develop its resources, in contributing, at the same time, to the individual and collective prosperity of the Argentine Confederation. To say nothing of the great utility and convenience attending communications in a country where common roads are almost unknown, and, where they do exist, are most difficult to maintain, the formation of railways, affords the means of access to distant properties, gives increased value to them, and otherwise confers incalculable benefit on the commonwealth. We need scarcely cite the example of Europe, now traversed by railways—of the United States of America, where railways have produced untold wealth—of India, where, since the great rebellion, upwards of fifty millions sterling have been embarked under Government guarantee in railways traversing its immense plains. In Brazil, where the Government have wisely adopted this great productive element, everything indicates that railways are the vital necessity of the age, and that any country without them must expect to be more or less blotted out from the advancement of the world. We sincerely trust that our friends in Buenos Ayres, and throughout the Argentine provinces, will awake to their destiny, and come forward with a liberal hand and a cheerful heart in the important work before them, employing their capital and resources in a way that will soon render them independent of foreign assistance, and prove the most lucrative of all investments, contributing to their stability as a nation, to their comfort as individuals, and proving far more than ephemeral declamation that they love their country and are determined it shall take a leading position in the new world. There is the additional inducement that railways in such a country as Buenos Ayres can be constructed at a moderate cost, and are in themselves certain, from the peculiar circumstances attending them, to prove highly lucrative. It is such inducements, and such arguments, failed of success, we should indeed despair of a people who were so blind to their own material interests; but we will hope for better things, and that ere long railway shares will become one of the leading investments in the Argentine Republic.—*Brazil and R. P. Mail.*

Specie opened very weak this morning, and the bears crowded round the speculation rail to sell for a full. Twenty-four millions of paper dollars every one said was to be burnt by order of President Mitre. Even in the café in front of the Bolsa, this stupendous "Quemazon" was the subject of conversation; but, strange to say, patacons grew firmer, and gold seemed in brisk demand. We hear that \$20,000 in sovereigns are going in the packet, besides a respectable sum in Bolivianos.

In the wool market we notice two sales, one in the South Plaza at 97, and the other in the North Plaza at 93. No other lots have arrived in the market yet. We give the following as the last prices of River Plate produce.

Helios, do, here, orders, dry hides at 97s. 6d. and 5 per cent.
Wilhelmina Magdalena, do. Goya, do. Brazil, beef at 5, 6, 7.
England—The little produce offering is engaged for the steamers, and there is very little bone ash left.

Antwerp—Dry hides offering freely, but vessels will only take a limited number to stow with bales; for a full cargo it is almost impossible to obtain a vessel. The new wool is only just beginning to arrive, but freights have already risen in anticipation of a heavy export.

France—Dry hides offering freely. In tallow large transactions; bales very scarce.

United States—Shipments almost entirely suspended.

Freights in general—Although we have plenty of disengaged tonnage, master's pretensions are high, and so far there is no more wool shipped. Rates may still advance.

We extract the following remarks from the circular of a leading English firm:—

Wool.—During the month about 25,000 arrobes of last season's clip have come forward, the whole of which has been sold at full rates, leaving in store from 8,000 to 10,000 arrobes; and it is estimated there remains about 60,000 arrobes still to be brought in.

Total receipts from commencement of season 2,107,000 arrobes.

Some 3,000 to 4,000 arrobes of the new clip have arrived, it is well grown and very clean, and has been selling at \$78 to \$110 (ex.) p. a., according to fineness, &c.; we have heard of one parcel for which \$120 has been refused.

Sheep Skins.—Arrivals continue abundant; prices have kept up, but there is evidently less animation on the part of buyers.

Hair.—Continues in demand; arrivals moderate.

Ostrich Feathers.—The demand has slackened, and prices have slightly receded; sales 9,000 lbs. Stock, 5 to 6,000 lbs.

Bone-ash and Bones.—Sales of 200 tons ash at \$10, and 300 tons do at \$8; also some small lots of bones at our quotations.

Vessels are scarce and freight high, consequently no sales have been effected in the rivers this month.

Exchange on England, 49½, 49½, for hard dollars; do on France, fcs. 520; hard dollars \$29.20; currency each.

Salt.—The demand has not yet commenced.

Coal—Cardiff steam is worth \$14 (s.); house coal, \$12 to \$13 (s.).

Lumber—Well assorted new York, is worth 42s (s.); other classes in proportion.

PASSENGERS LEAVING PER MERSEY.

Southampton—Mrs. Powinckle and family, Messrs. Hilburt, Pott, Clausen, and Martins.

Lisbon—Mr. Berenguer.

Rio Janeiro—Mr. Jordan, Doña F. F. Castilla.

Montevideo—Mr. Berenguer, Jr.

Oliden Beef.

This beef took the Gold Medal at the London Exhibition; bales of it are on sale at Ramayon's Store, 35 Paseo Julio, and 97 Calle Peru. Among the kinds most favorably received is fresh mutton with the ribs, which is a most delicate article, and becoming very popular in Rio Janeiro.

It is advisable for merchants and farmers to aid this branch of industry, which promises to attain great importance in the River Plate and Brazil. The beef may be prepared in the most savory dishes, if put in water the night before for eight or nine hours; and those who try it will admit its superior excellence. 6p. o27.

She does not know who has the money in hand; but she trusts that whoever has it will come forward, in just regard to herself and children, and pay it to the undersigned, who is fully authorized to act in the premises, and who would be glad to receive any information relative to the affairs of the deceased R. SAVINGS BANK.

BANK MAU AND CO.

No. 103 Calle de Cangallo, BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mau and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mau and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine am till Three pm on Week Days, and on Sundays and Holidays from Ten am to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mau and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mau and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.
